Definition	GIFTS:	BENEFITS:	HOSPITALITY:
Gifts, Benefits and Hospitality are defined as:	Gifts are the free or heavily discounted items, intangible benefits or hospitality exceeding common courtesies that are offered to employees in association with their work. They may be enduring such as a work of art or consumables such as a box of chocolates. They range in value from nominal to significant and may be given for different reasons.	Benefits are the preferential treatment, privileged access, favours or other advantage offered to an employee. They include invitations to sporting, cultural or social events, access to discounts and loyalty programs, and promises of a new job. While their value may sometimes be difficult to quantify in dollars, they may be highly valued by the intended recipient and therefore used to influence their behaviour.	Hospitality is the friendly reception and treatment of guests. It is hospitable to offer light refreshments in the course of a business meeting or as part of a conference program. Hospitality can range from offers of light refreshment at a business meeting to restaurant meals and sponsored travel and accommodation.
